COUNTY MATTERS.—The County Cournissioners, at their daily session yesterday, passed orders amounting to \$753 80, being the weekly pay-roll of hands employed on the new Jail. The remainder of the session was occupied in disposing of applications for the offices at the disposal of the Board. SURIDE OF AN AGRO INVALID. urday night last a man named William Zim-mermann, who resided near the north-end of Sycamore street, committed suicide by drowning himself in a cistern. He had been for some years residing with a daughter, and during the last three or four months and during the last three or four months had been in feeble health, and subject to intense suffering, so that he was frequently led to express a desire to die. On Saturday evening he left the house, and in a few minutes was heard to plunge in the cistern. The family ran to his relief, but when taken out he was past recovery, although every restorative usually available on such occasions was resorted to, in the hope of restoring film to life.

Cofoner Carry was called in, and an inquest held, the jury returning a verdict of suicide by drowning.

nicide by drowning. THE GARRAGE ORDINANCE. - The complaints that are constantly heard, of the negligence of contractors in not performing their obligations for cleaning the streets, and carrying away garbage, should induce our officials to carefully investigate all the causes of this complaint, and find whether they are real or imaginary; whether they proceed from neglect on the part of the contractors, or the people, or whether they merely arise from temporary impediments, which can not now be avoided, but which will soon be removed; or, if they result from all these com-

In the first place, it will be recollected that the present system of street-cleaning is alquently all parties citizens as well as con-tractors have not yet fully learned their relative obligations and duties; and it is not only possible, but highly probable, that much that is complained of may originate in this source. We do not know that this is in this source. We do not know that this is
the case, but merely offer a suggestion, that
those interested may investigate the matter.
There is no doubt but that if the ordinance
is carried out in its proper spirit, great sanitary benefits will result. A similar one has
had a happy effect elsewhere, and its execution, after a short experience has been found
entirely repeticable.

entirely practicable.

There can be no doubt but a better system than the old one is needed, to keep our streets in a proper order, and the present garbage ordinance should have a fair trial, before it is condemned.

The Faming in Kansas - 30,000 People in Want.

To the Editors of Doils, Pres:

The facts can not longer escape the attention of the most tardy and incredulous that an extraordinery condition of affairs prevails throughout a large share of the new Territory of Kansas, where there is at peesent "a famine in the land" so general that it is doubtful whether it has any parallel within the present century. The thrilling descriptions that have reached us in the reports of the county and township meetings and committees, in Kansas, who have investigated the wants and condition of the people, show a present and prospective destitution, equal, if not surpassing that of the famine in Ireland. Then there was only a failure of the potatoe crop. In Kansas all crops have failed! The people have exhausted their means in obtaining homes in a new Territory, thousands are now in want, and unless speedily pelieved, must suffer. Every thing is harren and bare, and the settlers see winter approaching, and their families without food.
